“*Marsha, I worked with you at (then) Columbia Nitrogen sometime in the seventies. I left in mid-1978 to go to Saudi Arabia.*

Many times I remember hearing the name "GL" Mason and his connection to CNC. I do not recall (age happens) knowing or hearing that you were related.

We returned to the US in 1988 and I began working at Savannah River Site. In my last six years there, until 2011, I was in Cash Management/Accounts Payable and ran into GL's and Master Fabricators' names again. I still didn't connect them to you. Now, in the time of your sorrow, I have.

I am sorry for you loss. Time will heal the wounds.
